("MICROmega" or "the Company")

RECLASSIFICATION OF SECTOR

Following MICROmega's decision to dispose of the NOSA Group of companies, MICROmega has now rationalised its remaining businesses into a growth focused portfolio based on technology dependent services. We will continue to focus on opportunities and markets that allow us to enhance our market share and profitability by deploying technologies that we have developed and continue to own.

Further to MICROmega's Annual Financial Results released on SENS on 28 June 2018, wherein shareholders were advised that an application had been lodged to move the FTSE subsector classification from the Business Support Services subsector to the Computer Services subsector, shareholders are hereby advised that reclassification to the Computer Services subsector has been approved with effect from 25 September 2018.
